CREATE AN UNBEATABLE EMPLOYEE EXPERIENCE

Your Digital Home for Hybrid Work

Innovation Minds is actively building the future of Hybrid Work – AT THE EDGE of your organization. We are a Silicon Valley-based company formed by passionate people to empower organizations to empower their employees to thrive in today's hybrid work environment.

Our extensive experience in technology, engagement, and innovation comes together in our EMPLOYEE EXPERIENCE SOLUTION FOR HYBRID WORK™.

Enable World-Class Collaboration

Bring every relevant voice into the creation of your strategic roadmap while keeping the process clear and manageable. Have everyone who matters feel heard and aligned, whether or not their inputs are brought into your strategy.

Collaborative Assessments©

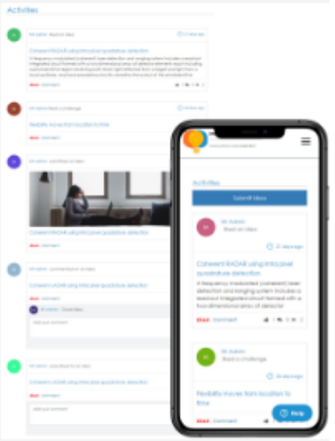
40+ business and functional assessments that give you the pulse of team insights. Measure your readiness against industry benchmarks.

Collaborative Whiteboard

Your team will collaborate visually and problem solve faster with this easy-to-use digital canvas. Seamlessly integrates with projects, ideas, or challenges.

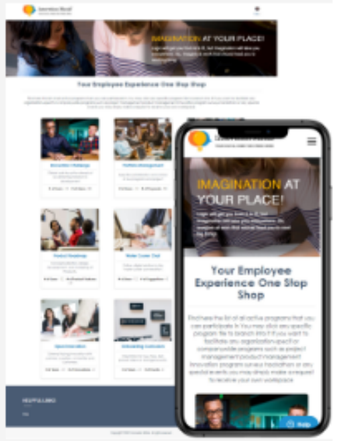
Secured Messaging

Effectively bring all your team communications together in a single location using real-time messaging. Integrate easily with Slack, Teams, and other apps.



LinkedIn Like Activity Feeds

Keep your employees continuously collaborating with these bite-sized updates. Empower connection anywhere using mobile devices.



Enterprise Portal

Your Hybrid Home for Employee Experience is ready for you. Combine the latest in Enterprise Innovation and Engagement to create breakthrough results for your organization.

Implement Impactful Project Management

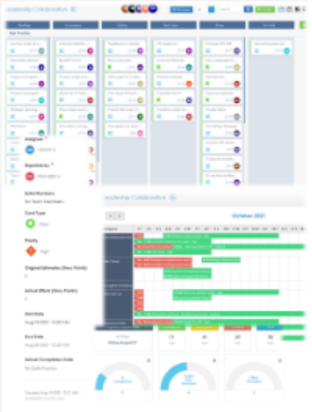
Align your projects to bigger company goals and values. Align your people and their larger goals to individual projects. Measure and create engagement and a great experience around projects, don't just "manage" them.

Collaborative Goal Setting

Make goals clear up front. Encourage employees to brainstorm and align before starting to execute your roadmap.

Crowdsourcing Project Ideas

Empower employees to share project ideas easily and support the growth of each other's proposals. Take your approved concepts powerfully to the finish line.



Collaborative Project Management

Use team-centric and problem-solving project-delivery methodologies. Evolve to the cutting edge of modern project management.

AI & Program Analytics

Use PM and PMO dashboards to manage your individual project or portfolio of projects. Integrate with our easy drag-and-drop calendar views and Collaborative Whiteboards.

Choice Of Your Methodology

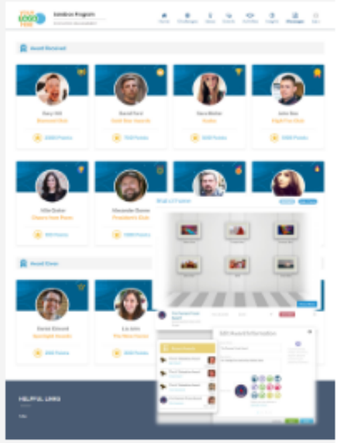
Select the right framework most appropriate to your project. Pick from Design Thinking, Design Sprints, 6-THON, Creative Problem Solving, and others.

Empower Meaningful Engagement

Maximize your productivity by making engagement a goal and practice, not just a measurement. Most of all, make it fun and easy to collaborate and 5x your results with our wide variety of employee experience tools.

Universal Engagement Score©

Track employees' contributions and interactions holistically. Promote and reward participation with an engine driven by powerful AI and employee gamification.



Advanced Gamification©

Our copyrighted "Earn Your Pride" program helps you recognize your employees and support them in recognizing one another for both their work and their levels of engagement.

Hall Talks©

Run short and synchronous surveys on a regular basis for ongoing engagement and inclusive feedback with a fraction of the effort.

Onboarding & Mentoring

Offer curriculum-based onboarding videos to invite and assimilate new hires to their roles. Assign them mentors for guidance, motivation, emotional support, and role modeling.

Event Management

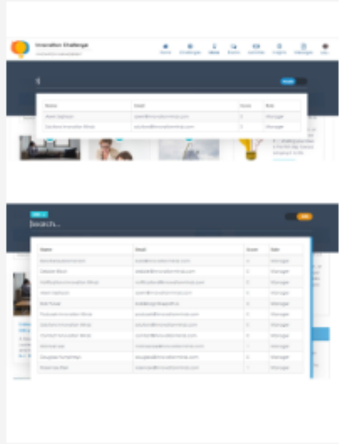
Motivate employees and reduce administrative work by providing the tools you need to run engaging and inspiring events that are easy to manage.

Activate Tangible Transformation

Make daily ENGAGEMENT your goal and practice, and INNOVATION as natural as breathing. TRANSFORM your company's CULTURE by giving everyone a clear role in your organization's success.

Innovator Profile©

Organically builds your employees' Big 5, DISC, and MBTI personalities, allowing you to understand your team's strengths and weaknesses based on real information.

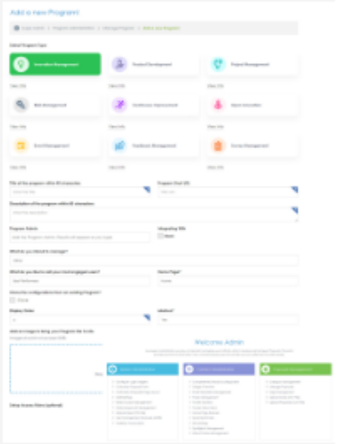


Talent Search

Search the right talent by their skills, engagement level, behavioral and may more dimensions to form likeminded or diverse teams.

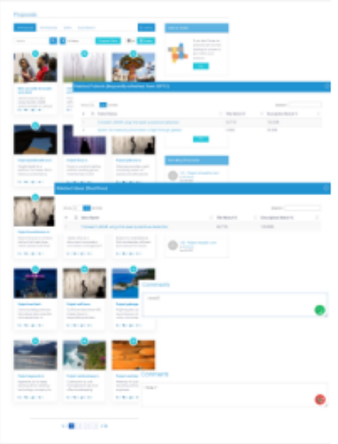
Talent Insights

Easy to use the drill down and drill up visual analytics view to track, guide, and reward your teams as well as your direct or indirect reports.



Predictive Team Modeling

Helps you with forming winning teams, performance coaching, succession planning, and nurturing a thriving and engaging culture.



AI for a Thriving Culture

Realtime Sentiment analysis to install positive team building, 'Comparables' to timely guide employees to avoid duplicative work, mentoring, wall of fame and many more.

Make Administration Easy

From configuration to administration and from documentation to training to insights downloads and more, everything is made easy. Beauty is that you can manage the solution at the platform level as well as individual programs levels.

Platform Administration

Manage your company portal centrally for user management, access & security and system-wide configuration & customization.

Program Administration

Manage multiple programs addressing your various organization needs of engagement, project management, innovation and collaboration.

Workflow Automation

Easy to use configuration tools allow you to implement your custom rules to manage the life cycle of projects, Ideas and products of each program.

Email Management

Platform is preloaded with templates covering most of the scenarios, yet an easy-to-use configuration features let you easily customize the emails to suit your needs.

Product Upgrades

Innovation Minds follows bi-monthly release schedules, unless otherwise, you were asking for a pause or exclusion, you can seamlessly enjoy the latest and greatest.
